

Age 9-11 School Year Schedule

A traditional school calendar has 36 weeks of lessons. Simply fill in the dates for each of the weeks you plan on homeschooling. Remember to skip weeks for vacation and holidays. In science/social studies and language arts, your child will explore four concepts that each contain three 3-week units. The math curriculum contains 9 units that vary in length. To stay on track, you will need to finish three lessons each day – one in science/social studies, one in language arts, and one in math. We have left days of flexibility so your child can spend time exploring some topics in depth.

Week	Date	Science, Social Studies, Language Arts	Math
Concept 1: Relationships			
1		Concept 1 – Unit 1	1 – Place Value: Millions to Thousandths
2		• LA – Poetry
